

The Institute for NeuroModulation is currently located in the **Sainte Anne hospital (1 rue Cabanis, Paris)** in the Jean Delay building.

To find the **Jean Delay building**, enter the hospital campus through the main historical gate rue Cabanis, as described below:

Enter the building following the arrow on the above map. You will find three elevators. Take one of the elevators that are standing side-by-side and go the **5<sup>th</sup> floor**. Turn left when exiting the elevator, and then take the long corridor in front of you. I am in **office #11**.
